

*Semiautomatic,  
multispindle, single-  
head boring machine*

## BORING SYSTEM 21 PRESTIGE

For horizontal and vertical drilling into wood-based panels and solid wood, for the furniture manufacturing

### FAST HORIZONTAL DRILLING

Thanks to the 640 mm interaxis and the large working table, You can process 2 panels having 316 mm width at the same time

### FAST VERTICAL DRILLING

You can process 3000 mm - long sides in 5 working cycles

### PERFECT PANEL JOINTS

The ref. side fences, adjustable along a metric bar, with magnify glass and nonius, always represent a precise reference point for the operator and guarantee the perfect parallelism of the drilling operations

*Small footprint: 1mq*

*Two times faster than a manual boring machine*

## BORING SYSTEM 21 PRESTIGE SERVICE

Worldwide after-sale service.

Real-time, on-line remote assistance through a dedicated augmented reality APP.  
Spare-parts availability for up to 10 years, shipment within 24 hrs

## DATA SHEET

Spindles	N 21
Left and right spindles	N. 10 left - N. 11 right
Spindle interaxis	32 mm
Total interaxis:	640 mm
Max. tool diameter	40 mm
Max. boring depth	65 mm
Max. boring height	55 mm
Height of working table	860 mm
Max. panel thickness	60 mm (130 mm optional )
Max. panel dimensions	900 x 3000
N° 1 motor	HP 2 / KW 1,5 - RPM 2800
Standard pneumatic pressure	BAR 6/ 8
Air consumption	10 NL / cycle
Dust collection hood diameter	80 mm
Overall dimensions - net weight:	1015 x 990 x 1270 - kg 260
Package dimensions (machine)	1150x 950 x 1050 -
Package dimensions (long fences)	1500 x 120 x 60
Gross weight	kg 290

### QUICK SET-UP

Adjusting the boring depth is extremely easy with the "Spiral System" device and the 10 mm automatic reset for vertical drilling

### VERSATILITY

It drills at any angle between 0° and 90°

### SAFE PANEL HOLD-DOWN

The quick-positioning, safety, hold-down clamping units ensure the greatest stability and steadiness of the working piece during the working cycle and the highest accuracy of the drilling process
